

## What is the Dirty Dozen List?

The Dirty Dozen List is an annual campaign calling out twelve mainstream entities for facilitating, enabling, and even profiting from sexual abuse and exploitation. Since its inception in 2013, the Dirty Dozen List has galvanized thousands of individuals like YOU to call on corporations, government agencies, and organizations to change problematic policies and practices. This campaign has yielded major victories at Google, Netflix, TikTok, Hilton Worldwide, Verizon, Walmart, US Department of Defense, and many more. ## Apple App Store

Deceptive to the core: Apple App Store age ratings and descriptions mislead parents about the content, risks, and dangers to children on available apps. When caregivers aren't informed, kids pay the price. Appeal to Apple to #fixappratings

## Instagram

Instagram's slogan is "Capture and Share the World's Moments" – for countless children and adults that includes their worst moments.

Grooming, child sexual abuse materials, sex trafficking, and many other harms continue to fester on Instagram.

## Roblox

Roblox isn't all fun and games. Among the blocks and buildings, kids may be exposed to predators and inappropriate content. Request Roblox to keep its "imagination platform" free of sexploitation.

## Kik

Kik's Crawling with Criminals. The anonymous messaging app is a “predator’s paradise” for grooming kids and sharing images of their abuse, in addition to hardcore porn and prostitution ads. Kik needs to be called to account for harm against kids!

## OnlyFans

OnlyFans: Empowerment or Exploitation?

OnlyFans promotes itself as giving porn performers power, but in reality it empowers sex traffickers, child exploiters, and “revenge porn” posters. Learn more and take action

## Snapchat

Snapchat Is Dangerous By Design - Year after year, Snapchat is named a top spot for sextortion, sexual interactions between minors and adults, and pornography exposure. No more excuses! Tell Snap to end its apathy and fix safety measures now.

## Microsoft's Github

GitHub is the go-to place to create sexually exploitative technology. Deepfakes, “nudify” apps, and AI-generated pornography originate on this collaboration platform for software development. Microsoft’s Github must get rid of image-based sexual abuse

## Spotify

Porn is too easy to spot on Spotify - and the parental controls are tone deaf. Insist this popular streaming platform fix its filters to remove sexually explicit images and prevent predators from accessing kids.

## eBay

“Whatever it is, you can get it on eBay.”  
Unfortunately, that includes childlike sex abuse dolls and spycams advertised specifically for filming women without their consent.

Encourage eBay to act ethically!

## Twitter

“Twitter was asked to take [child sexual abuse material] down and Twitter said ‘we’ve looked at it and we’re not taking it down.’” - Judge at the U.S. 9th Circuit Court of Appeals.

## Discord

Discord is a Haven for Sexual Exploiters: This messaging platform is popular with predators who want to groom children and find and trade child sexual abuse materials, as well as adult image-based sexual abuse. Demand Discord step up and stop the exploitation

## Reddit

It takes less than 5 seconds to find sexual exploitation on Reddit. This “front page of the Internet” is a hub of child sexual abuse materials, sex trafficking, and image-based sexual abuse. Reddit must rid its platform of sexual violence
